From: Snr R Pers PRO Researcher

3 Feb 1980

Dear

I am newly on post as Snr P PRO Researcher under Lt. Laurel Sullivan, Snr R PPRO.

I will be doing documentation and research for various international campaigns and major PR actions.

My research is contributory to the achieving of the Pers PRO Bu products:

- Increased consumption of LRH products
- Security for LRH by increased repute
- Successful defenses of LRH
- Confidence in LRH
- Faith in LRH Tech and materials
- Broadened knowledge of and respect for LRH
- Successfully exploited LRH properties of all types to correct LRH publics
- Demand for LRH
- Demand for LRH products

My main concern over the next year will be getting an LRH Biography produced. This will be a big, best-selling book authored by a top professional writer.

This biog will once and for all dispel all falsehoods and make the truth known. It will be a vital tool in bringing about the universal acceptance of LRH and his products.

All periods of LRH's life will be documented in as much detail as possible. Staff members or others who have had personal contact, friends and family members will be interviewed or asked to write up their experiences.

I will be working closely with the writer to get him set up with whatever he needs, get him the documentation in a usable form and use our lines to fill in any gaps as he proceeds.

As new docs or data of PR value are obtained, intended for the biog or other actions, I will also feed these into the P PRO Bu and other PR networks on proper lines where the data can be used.

Additionally I will be searching out original LRH writings, letters, records and artifacts and, where possible, obtaining them for the Church. These and such things already known to exist will be properly preserved and secured against damage.

-2-

Out of this will grow an LRM Museum, a record of his achievements, which will make Source fully real to all - Scientologists and others.

If you personally have any data which would help or know of someone else who could help with this type of documentation please let me know.

I intend that all the above comes about and as speedily as possible.

Please let me know what is needed and wanted from me

Much love,

Snr P PRO Res
